

To ensure you have comprehensive, real-time corporate booking data, including data booked outside of your travel program, Fox has partnered with Traxo, Inc. the world's leading data aggregator. Traxo automatically captures booking data without relying on action by your travelers. With real-time data, travel managers are able to immediately react and make adjustments for risk mitigation and spending purposes. Through this service, our clients can now experience fully integrated data visualization of all spend through Fox's proprietary platform, Cognition™ and in the end, a more comprehensive way to manage your travel program.

GAIN STRATEGIC INSIGHT INTO YOUR TRAVEL PROGRAM BOOKINGS

Automatic Data Aggregation

Booking confirmation emails are forwarded automatically through Traxo Filter. Discover data booked outside of your travel program for enhanced traveler safety and to monitor spend through Fox's Cognition™ data visualization tool.

Instant Reports

View all traveler bookings on demand through dashboard functionality with Traxo's Admin Console. Easily download data for use with analytics.

Ecosystem Integrations

Traxo Marketplace links you to support services for duty of care, flight disruption assistance, expense management and more to make your travel data actionable.

DATA SECURITY

We are committed to data security and confidentiality. For more information, visit [privacyshield.gov](https://www.privacyshield.gov) and [traxo.com/security](https://www.traxo.com/security).

Now is the ideal time for corporate travel departments to make sure they have the proper systems in place to ensure they can keep ALL of their employees safe as they resume traveling. Fox World Travel is a TMC innovator and thought leader for realizing that, despite travel policy mandates, there will always be inevitable business travel bookings that occur outside of the mandated channels, resulting in critical gaps in visibility. Without full and real-time visibility into all corporate travel bookings, neither the TMC nor the corporation can effectively provide duty of care coverage for all of their traveling employees.

ANDRES FABRIS, TRAXO CEO
